**ONE VOICE AGAINST CANCER (OVAC)** is a collaboration of national non-profit organizations representing millions of Americans, delivering a unified message to Congress and the White House on the need for increased cancer-related appropriations.

#### As a united front OVAC:

- Enhances the cancer community's ability to secure sufficient funds to fight the war on cancer and to help those facing cancer to fight this deadly disease.
- Commits participating members to cooperative efforts that increase understanding of the need for both cancer research and control programs.
- Harnesses the synergy of volunteers from multiple organizations in delivering a powerful message to policy makers.

**ONE VOICE AGAINST CANCER** began in January 2000 as a working group of public health organizations advocating for greater federal investments in cancer research. OVAC has since grown into the leading cancer coalition in the nation's capitol, pressing lawmakers to focus efforts on outreach into ethnic minority and other underserved populations, many of which have a higher risk and mortality from various forms of cancer.
